

Understanding Your MSAA Reports in the Updated LENS™ Platform

We are committed to maintaining a smooth reporting experience for educators, while also introducing new tools to enhance data access and interpretation. This one-page guide outlines what remains familiar and what's new in the updated LENS platform.

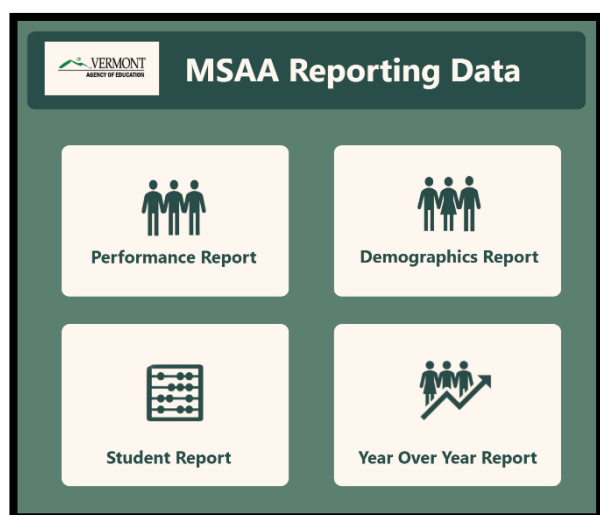

What's Staying the Same?

Performance Reports You Know

- You will continue to access District & School Quick Reports, Student Quick Reports, and Interactive Reports, just as you've done in past years.
- These reports are available by selecting Performance Report under the Dashboards tab.

What's New This Year?

MSAA Dashboards: Enhanced Visualization and Insights

- A new MSAA Dashboards section is now available under the Dashboards tab.
- These tiles provide interactive visual dashboards for:
 - Performance Trends
 - Demographics
 - Year Over Year Comparisons
 - Student-Level Filtering and Reports

We are always looking for ways to improve and value your input. Please share your feedback so we can continue enhancing the reporting experience to best support Vermont educators and students.
